Company main conditions

● Brief introduction

C&D International Co., Ltd has been designing and manufacturing the high quality refrigeration products for a wide range of industrial, commercial and residential use, including but not limited to residential central A/C, commercial central A/C, terminal units, and other cooling/heating needs.

C&D International, as a manufacturer for above products, is proud with the ability to provide custom solutions for most specific needs, which is not ordinarily available from the large, international manufacturers. The ISO,ETL and CE certification have been obtained to enter the oversea market.

ACWELL, the brand name owned by C&D International, is a growing brand with bright prospect by providing reliable products to the world.

● Strength of the company

1 Innovation in design and technology

2 High quality and excellent services

3 Rich experience in production

4 Professional teamwork

5 Strict testing and examination

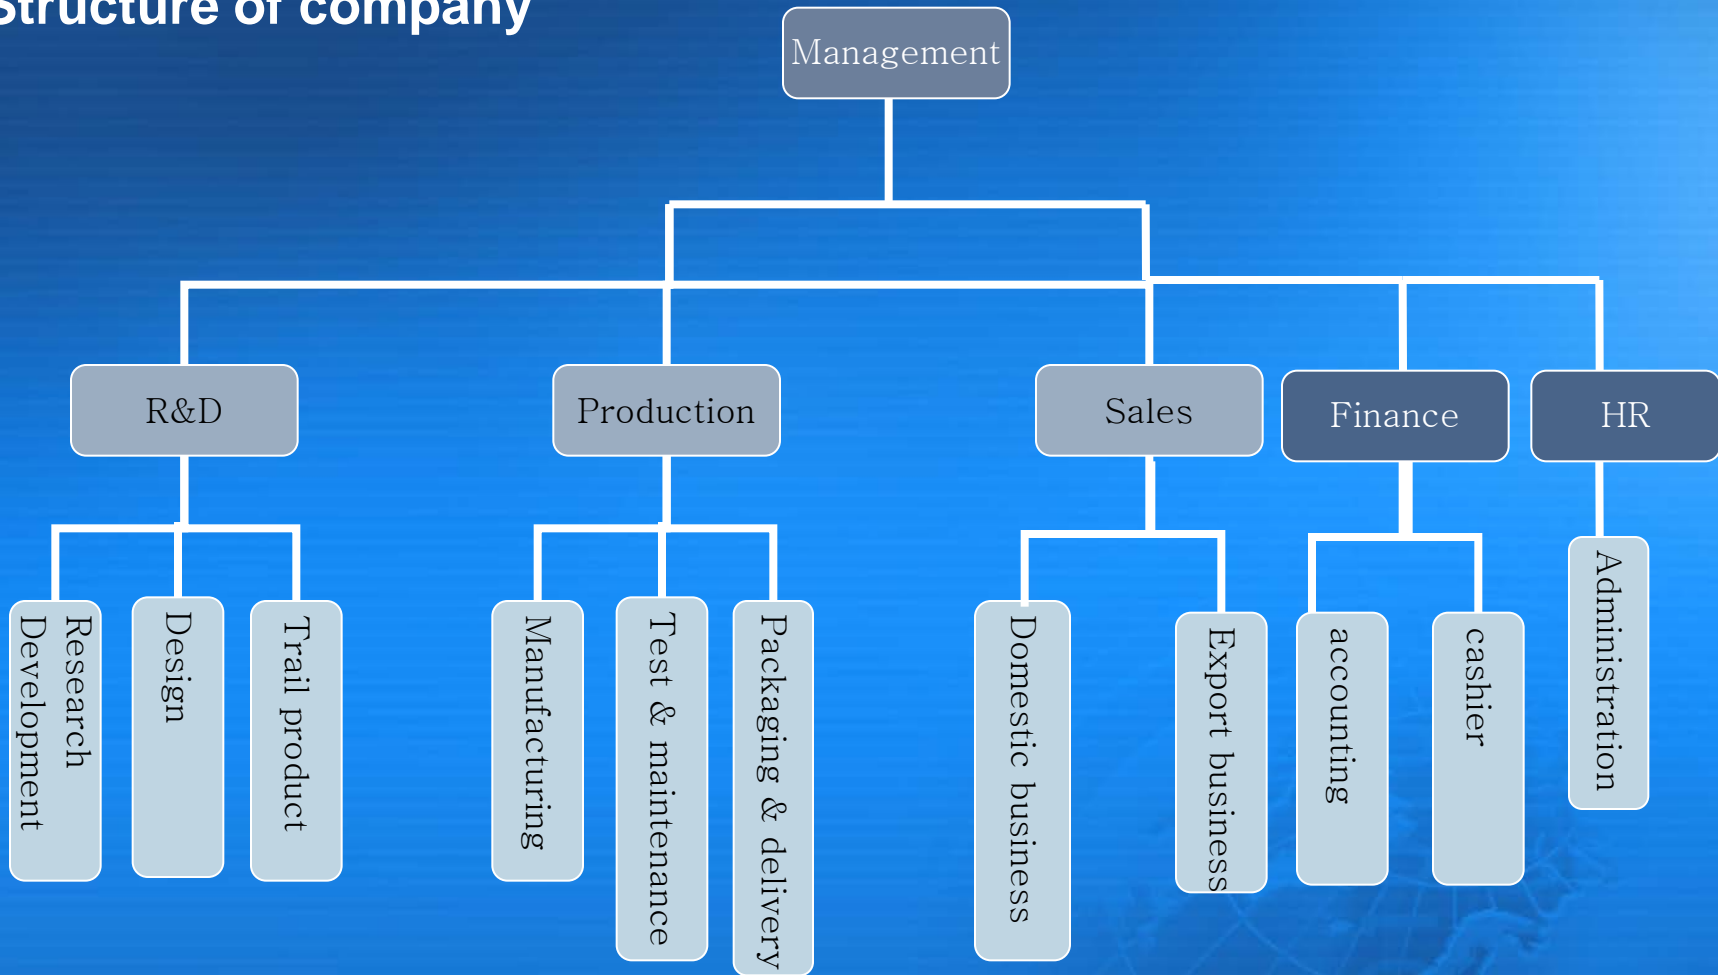

Company main conditions

- **Product range**

- Air source heat pump unit
- Parallel connected scroll chiller
- Water cooled water chiller
- Water source heat pump unit
- Ground source heat pump unit
- Water loop-air heat pump
- High temperature hot water heat pump
- Instant hot water air source heat pump
- Swimming pool heat pump
- Heat pump pool heater
- Telecommunications air conditioner
- Dry cooler
- Low ambient temperature heat pump
- Heat recovery unit with heat pump
- Rooftop
- Air handling unit
- Fan coil unit
- Portable Air-cooled Water Chillers
- Ducted Split Systems
- Condensing Units
- Evaporator & Condenser Coil
- Thermostat
- Cassette Air Conditioner
- Direct Current Inverter Air Conditioner

Company main conditions

- Structure of company

Company character : joint-stock large-scale company

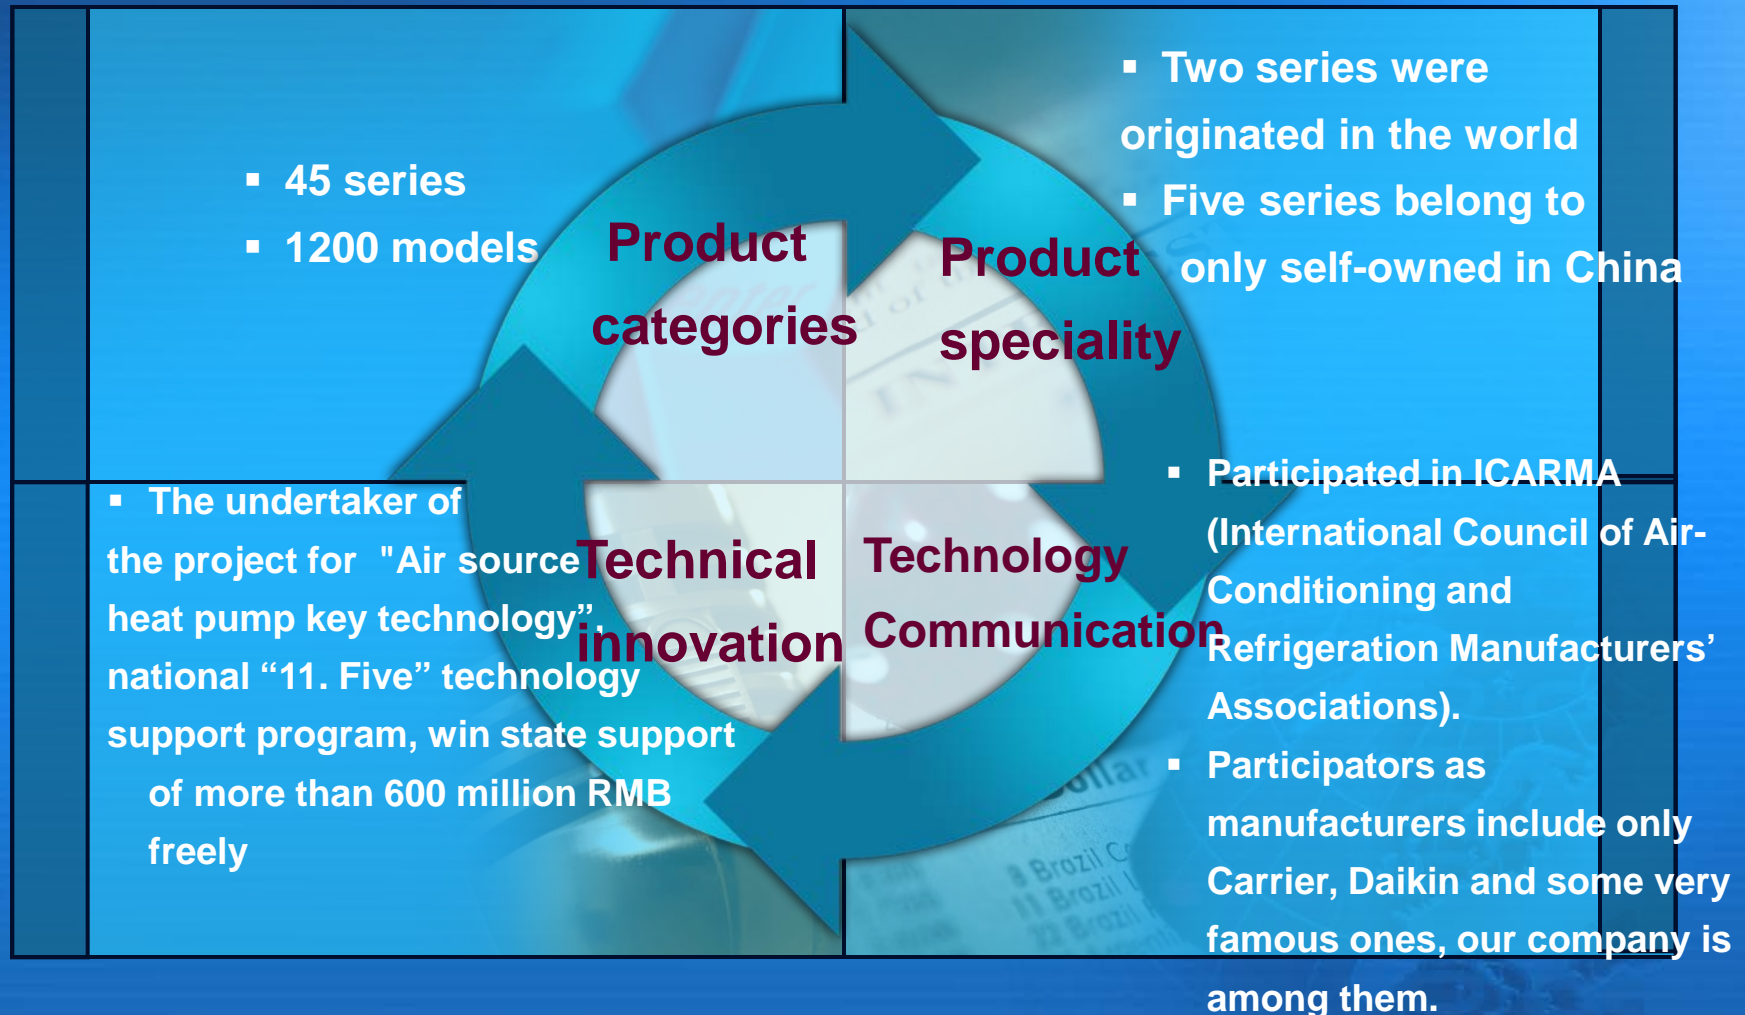

Company main conditions

- Basic information of the company

item	data	Details		
Turnover	Domestic market (RMB) 0.4 billion	Overseas market (RMB) 0.1 billion	Total (RMB) 0.5 billion	
Export destination countries quantity	Our products have been exported to near more than 60 countries and regions.			
Brand overseas promotion activities	Showed our products and listed in participating members of the 17th international exhibition for refrigeration, air conditioning, heating and ventilation, frozen food processing, and IKK 2006 Nuremberg, International Trade Fair/Refrigeration, Air conditioning and ventilation.			
	Took part in and showed our products in international Trade Fair Building and Energy Technology, The Bathroom Experience, Air conditioning and Ventilation (UFI) 2007 in Germany.			
	Participated into and showed our products at the Chillventa Trade Fair 2008 in Nuremberg, Germany.			
Advertised in <ASHRAE>, the US most professional and authoritative magazine in this line consecutively.				

Company main conditions

- Basic information of the company

Target market and business mode

- **Main target market**

- Special usage environment
- Special usage requirement
- High efficiency and energy saving
- Environmental protection and sustainable development
- Variable equipment matching requirement

- **Main target market**

- Knowledge of client requirement
- Design and make trial product
- Jointly finalize the product model
- Production
- Sales to destination area

Target market and business mode

- Local and overseas market coverage

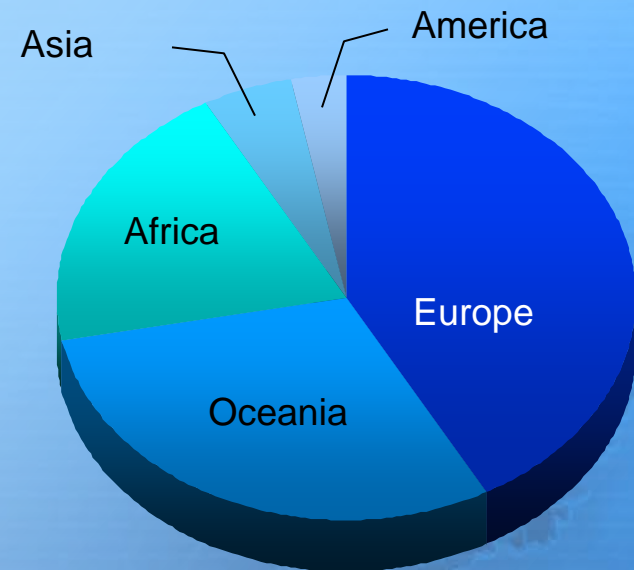

Domestic Business

Coverage of local market

- Large-scale project site
- Commercial buildings
- Industrial plants and factories
- Hotels, villas and apartments
- Hospitals, schools and libraries

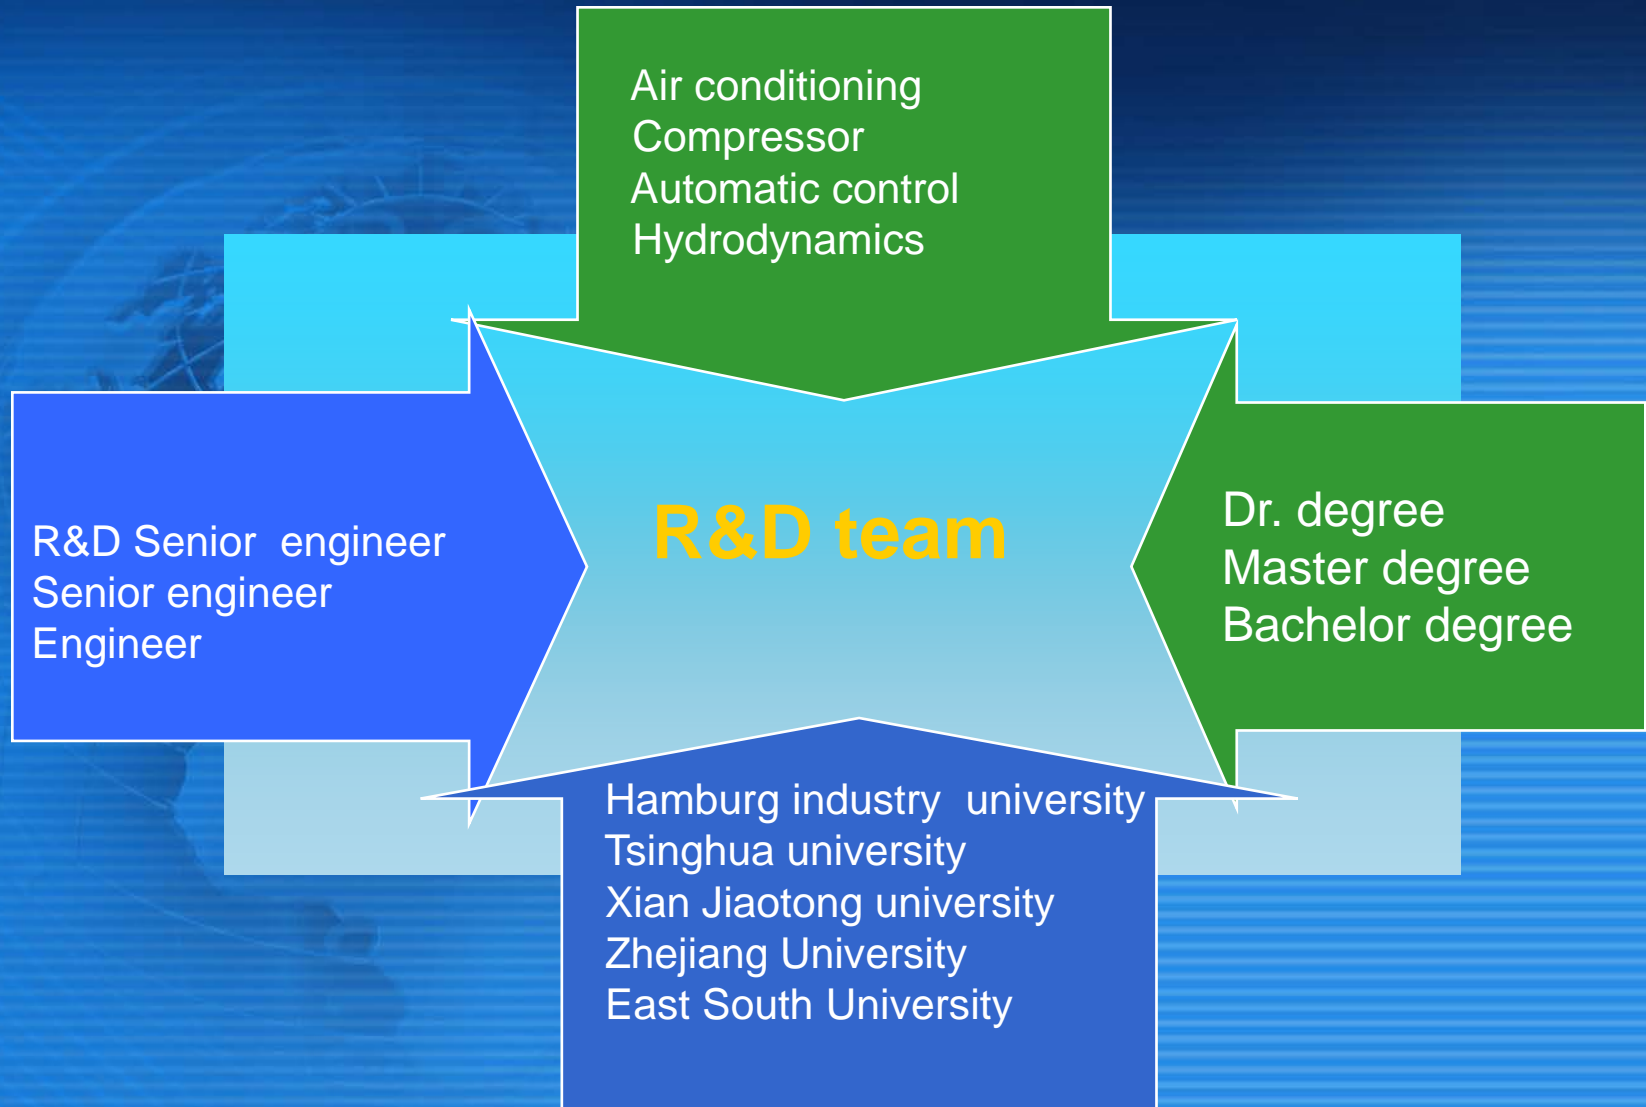

Export Business

- Coverage of overseas market

Product design and development

- Research and development team

Product design and development

- Innovation in product technology

National project

- The undertaker of the project for "Air source heat pump key technology", national "11. Five" technology support program, win state support of more than 600 million RMB freely

Self-owned product

- High temperature heat pump technology, break through the difficulty of air conditioning unit water outlet temperature of 73 centigrade degree, directly reach 85 centigrade degree, which has been applied into overseas project greatly

Advanced technology

- Spray air filling technology, high temperature refrigerant technology, independent research and development of integrated electronic control technology.

Product design and development

- Factory equipments, environment and products

Product design and development

- Production process

Domestic applications

- Local market applications

Export applications

- Oversea project at-site products applications

Export applications

- Export product applications reference

No.	Product name and model No.	Client	Application	Country
1	Industrial screw type water cooled chiller	Dealer	Industrial construction project	Egypt
2	Air source heat pump, FS-L 300	Dealer	Plant	Saudi Arabia
3	Chiller-BWC 26	Dealer	Air conditioning	UAE
4	Condensing coils, DX coils, air cooler coils	Direct client	Ship/boat usage air conditioning units	Singapore
5	High temperature hot water heat pump, GSHP 1500	Director client	Industrial process	Norway
6	Air source heat pump, FS-S-LN 1060	Store center	Air conditioning	Norway
7	Water cooled water chiller, SLSB 500	Store center	Air conditioning	Norway
8	Air source heat pump, FS-S-R 400	Dealer	Heating	Norway
9	Water source heat pump, SGHP 260	Dealer	Milk process	South Africa
10	Air Source Heat Pump	Dealer	Prison/ Hospital	South Africa
11	Fan coil, MCW series	Hotel user	Commercial building	Chile

Export market coverage

● Indication of exported areas
